To sing a message on a known or improvised melody is a known technique that is used as a form of dialogue with people with dementia.

The brain can better relate to the words if they are conveyed in a melodic way.

Sound message given to parents

The dice can be difficult to keep track of, and it does not make it easier if you can't see. The solution is an empty transparent plastic bucket with a lid. Put the dice in the tub, put the lid on and shake. The tub is set on the table, and the supporter can easily see what you've beaten. And the dice are on the table.

TALLERKNER MED KANT TIL BLINDE OG SVAGSYNEDE

Det kan være svært at holde maden 'inde' på tallerknen, når man ikke ser så godt eller er blevet blind. Og så længe man selv kan spise, giver det frihed at kunne klare det selv.

Derfor kan det være en god idé med tallerkner med kant.

Her er forskellige net butikker du kan kigge på:

<http://www.butikkik.dk>

<http://www.hmi-basen.dk>

<http://littleones.dk> (grisen)

Her kan man købe tallerkner med kant i flere farver og design. Eller 'kanten' til at sætte på almindelige tallerkner. De har mange andre hjælpemidler man kan have glæde af, hvis man ikke kan se.

God fornøjelse

Sofie had a lot of jewelry. They were placed in boxes. In every room was a note that read, who had given her the jewelery and at what occasion. When Sophie got jewelry on, her supporters could talk with her about this. And they also wrote in Sophie's home-school book, from whom the jewelery came, so they could talk about it in school.

In Denmark children and young people with NCL meet approximately six times a year. They sing a lot together and always by the same songbook. Familiarity means a lot to them.

Teller mit erhöhtem Rand
Wenn ein erhöhter Rand auf den Teller gesetzt wird, kann so leicht nichts vom Teller rutschen.

Trinkbecher mit Griffen
– auf rutschfester Unterlage.
Gute Übergangslösung, wenn die Greiffähigkeit nachlässt. Steht der Becher dann noch auf einer rutschfesten Unterlage, kann so leicht nichts verschoben werden.

Zahnbürste 3-Kopf
Erleichtert das Zähneputzen ungemein, da die Zahnräihen gleichzeitig von drei Seiten bearbeitet werden. So bleibt Geduld für andere Dinge.

Zungenabstreifer
Ist nicht nur ein gutes Mittel gegen Mundgeruch, sondern beugt diesem auch vor.
